Hi, I'm John Gierek, co-chair of the ^{ST Hospital's} ~~Blueprint for Excellence~~ ^{Capital} Northeast Patient Tower campaign. On behalf of St. Joseph Hospital, I would like to say thank you to everyone who attended our recent open house ~~at the Northeast Tower~~. An estimated 2,500 people came through our doors to see our beautiful new medical facility, talk to staff in our clinical departments and see the state-of-the-art medical equipment and technology that will enable us to provide the highest quality health care for North Coast residents for years to come. We received wonderful response from community residents as they toured the building and we are extremely excited and proud to open this new facility to patients in April.

Our new medical facility would not have been possible without the strong support of community members who stepped up to make financial commitments to the Northeast Tower capital campaign. We are proud to announce that with the help of our supporters we have surpassed our first phase goal of raising \$12.5 million, all of which will be matched dollar-for-dollar by St. Joseph Health System for a total of \$25 million to be used as a downpayment on the tower. The individuals and organizations who supported our capital campaign have helped secure healthcare for our community and for our families, friends and neighbors who live and work here. Every donation made a difference and we are grateful to everyone who made sacrifices big and small for the benefit of the entire community. So, from the bottom of our hearts we say thank you to our donors for helping to make our dream of building a world-class medical facility right here in Humboldt County come true. We couldn't have done it without you.

(end here? or...)

The next opportunity to see the Northeast Tower will be in April when we open it up for patient care. Look for more information about our official opening on our website at www.stjosepheureka.org.

Notice from St. Joseph Health System:

Please note that the information contained in this message may be privileged and confidential and protected from disclosure.

No longer will patients have to leave our
community to receive the highest quality care
available ^{that's needed} ~~that you need~~ - when ^{it's important to get it} ~~you need it~~ right here
at home with your family + friends

Now,
patients can receive the highest quality healthcare available
in a healing environment, right here at home, when it's
needed - with family and friends by your side. And we
all know how important ^{what} strong connections in the
healing process.

~~At the time~~ In April, look forward to a beautifully developed
Ambulatory Department, Urgent Care, ICH, ~~and~~ other state of the art
operating rooms, technology, and support services for our community
